Professional profile

Full-Stack Jr. Developer passionate about building innovative, high-performance technology solutions. With experience developing web applications using modern technologies such as React.js for the frontend and C# .NET for the backend, I am committed to designing and implementing efficient, scalable, and secure solutions. I have a strong understanding of software development principles and best practices, allowing me to write clean, modular, and maintainable code that enhances both functionality and performance. My approach prioritizes user experience, ensuring that applications are not only technically sound but also intuitive, responsive, and engaging. In addition to my technical skills, I enjoy collaborating with cross-functional teams, continuously learning new technologies, and staying up to date with industry trends to improve my development practices. Whether it's building dynamic web applications, optimizing backend performance, or enhancing system security, I thrive on solving complex problems with innovative solutions.

Experience

Community Volunteer (NicaSecurity)

Web Developer and creator of Capture The flags   **(Oct 2024 – Present)**

- I actively participate in the development of web platforms and the creation of CTF challenges to promote learning and practice in cybersecurity. I work in teams to design interactive content that encourages the development of technical skills and collaboration within the community

Web Developer (Freelance temporary)

Web Development and Customer Service   **(Feb 2022 - Mar 2022)**

- Designed and developed a custom website that met the client's requirements, improving their business's online presence and resulting in a significant increase in customer visits and enquiries.

Education   Languages

Education		Languages
Baccalaureate in Computer Engineer, UNED	**(2023 - Actualidad)**	English: B1
Diploma in Computer Science, UNED	**(2021 - 2023)**	Spanish: Native
High School, Colegio Académico Republica de Italia	**(2015 - 2020)**	

Skills and Knowledge

Emotional intelligence	Discipline	React	TypeScript
Problem Resolution	Windows Server	Github	Java (POO)
Linux	CSS	JavaScript	Git
SQL	.NET	C#	Python

Courses and Certification

- Front End Dvelopment Libraries (freeCodeCamp)
- Responsive Web Design (freeCodeCamp)
- Python Essentials 1 (Cisco Networking Academy)
- Professional Development, Programing Beginner and Front End (Oracle Next Education)
